

Hillary's

United We Stand

On September 11, 2001 a series of coordinated attacks on the United States brought the United States to a halt. Nearly 3,000 people died, the overwhelming majority of casualties were civilians. The experience was surreal and people were numb.

In our effort to remember those who were lost, but not forgotten, honor of those who were working in the relief effort and support our country at this difficult time Hillary's created a meaningful gift tower filled with red, white and blue sweets. Our patrons sent special wishes for any number of occasions and helped support the clean-up and rebuilding effort in New York City.

10% of the proceeds of each gift was donated to the American Red Cross Disaster Relief Fund in New York City.
